River; Del Steed, Cardston; Jack Anderson, Medicine Hat; Dave Jantzie, Claresholm; Ken Walker, Strathmore and Ralph Trimmer, Lethbridge.

Town and Rural

Christmas Lighting Displays Judged

Even the casual observer driving around town during this past season of Christmas could see that much greater effort had been put forth than ever before to brighten up the town for Christmas. Decorative lighting at residences and business places was far more extensive and elaborate than at any previous Christmas season.

The Board of Trade, campaigning for better Christmas lighting, is very pleased at this first year's results. In town, prizes for best residential lighting displays will be awarded to John Mitchell, Bill Giles, John Wolfe and Boyd McKay, while in the country the homes of Russell Robb and Harold Hansen were judged to have the best displays.

No placings of first, second or third were made this season, but for next Christmas, rules will be drawn up and displays judged accordingly. In addition to town homes and country homes next season, it is likely that the contest will be widened to include a third category of business places.

TOBACCO EVERYWHERE

Almost a third of the world's supply of tobacco is grown in the United States but the Book of Knowledge points out that much is also grown in several other areas of North America, Europe and Asia. The finest cigarette tobacco comes from Macedonia and Turkey.

The first three of a series of ten art exhibits has begun a circuit of Alberta communities to be shown under the sponsorship of recreation department, schools, libraries and cultural organizations. The other seven exhibits will start their display tours during the next two months.

The travelling exhibit program, believed to be one of the largest in the country, is the result of a co-operative effort on the part of the Arts and Craft Division of the Cultural Activities Branch, the University of Alberta, the Provincial Institute of Technology and Art and the Allied Art Centre in Calgary. Previous to this year, several exhibits were made available to communities. However, this

is the first time all organizations have been combined to participate in such an extensive program.

Alberta communities were canvassed prior to the start of the tour to select the display desired. A maximum of three may be sent to any one point. The only requirement for the local group is to pay any express shipping charges to the next showing point. The enthusiastic response to the program will result in most of the exhibits being used until the end of April, 1961.

Represented in the exhibits are work from the Department of Extension, University of Alberta; Provincial Institute of Technology and Art; Grande Prairie Art Club; Fort McLeod Sketch Club; Leth-

bridge Sketch Club; Medicine Hat Community Art Club; Calgary Allied Arts; Red Deer/Lacombe/Sylvan Lake Art Club; Drumheller Art Club and the Department of Fine Arts, University of Alberta.

Shown as they examine paintings of one exhibit ready to be packed and shipped for display, are left to right, J. B. Taylor, member of the Provincial Arts and Crafts Board and staff member of the U. of A. Fine Arts Department, Professor H. G. Glyde, head of the U. of A. Fine Arts Department, and W. J. Former Resident Of Carmangay Dies

Dee Craig Folk died in Vermilion hospital December 20.

He had taught in Vermilion School of Agriculture the past fifteen years. He also directed the choral groups and each year an excellent Operetta was staged.

He would have been eligible for super-annuation from his position next spring.

Dee was son of the late Mr. and Mrs. C. W. Folk of Carmangay and now only one member of the Folk family survives, Mrs. Mary Mercer with her family line at Strathmore.

The family came from Ohio and settled in Carmangay in 1910. Dees parents are buried in Lethbridge.

Funeral services were held in Hainstock and Sons Chapel in Edmonton on Friday, December 23 at 3:30 p.m.

Burial was in Mount Pleasant cemetery, Edmonton where the Rev. E. S. Reikle of Calgary, an old friend, officiated at the service.

Mr. Folk is survived by his widow Beryl, one daughter, Dorothy, three grand-children and one sister, Mrs. Mary Mercer of Strathmore.

Mr. Folk had been a teacher in the province for 39 years, and before going to Vermilion he was shop instructor at Drumheller High School.

He was principal at Manyberries, Etadikon and Foremost prior to that time.

Friends in Carmangay and district will feel the loss and recall the days when his assistance in Church music was much appreciated.

Eight Bouts Presented

First Boxing Card Held By Vulcan Club Members

Perhaps due to the cold weather at the time and the busy Christmas season, a smaller crowd than anticipated attended the first display of the Vulcan Boxing Club at the Armouries on Dec. 20. It was an entertaining evening for those present, though, with Vulcan and Cardston boxers putting on good exhibitions.

There were no draws, as provincial amateur boxing rules require that a winner must be declared in each match. Much credit goes to both winners and losers for an excellent card and results were as follows:

Bout 1—Jackie Connolly, 64 lbs., decisively Terry Brown, 65 lbs.

Bout 2—Bernard Swanson, 127 lbs., TKO'd David Wylie, 127 lbs., at 1:52 of the first round.

Bout 3—Lyle Hart, 88 lbs., won by a split decision over Robbie Ness, 82 lbs.

Bout 4—Dale Lebsack, 106 lbs., won by a close decision over Gordie Coombes, 101 lbs.

Bout 5—Wally Mensinger, 50 lbs., won over Clarence Swanson, 54 lbs.

Following the fifth bout the crowd was entertained with a fine acrobatic display by Willie Dahl. After a short intermission there were three bouts which saw Vulcan boys pitted against Cardston boxers.

Bout 6—Ricky Albiston, 78 lbs., Cardston, won a close decision over Ricky Schust, 70 lbs., Vulcan.

Bout 7—Frank Cole, 133 lbs., Cardston, knocked out Lloyd Jones, 141 lbs., Vulcan in the second round.

Bout 8—Harold Palmer, 144 lbs., Vulcan, won by a technical knockout over Wesley Davis, 151 lbs., Cardston, in the first round.

The club expresses appreciation to the officials for the fight card: Dr. A. D. Tompkins, medical examiner; Bill Calhoun, Darrel Albiston, referees; Leonard Hart, Jerry Palmer, Dennis Gooch, Vulcan, and Jay Scott, Cardston, judges; J. L. Moyer, timekeeper; Mr. Mumby, master of ceremonies.

The Vulcan club is planning another boxing card for some time in February. Interest in amateur boxing is at all time high throughout the province and fight cards are scheduled for Jan. 14 in Cardston and Feb. 1 in Calgary. Some of the Vulcan boxers plan on competing at these two events.

WORLD RECORD JUMP

In its survey of last year's sports highlights, the Book of Knowledge Annual includes the achievement of John Thomas, phenomenal 18-year-old Boston University student, in creating a new world record of 7 feet 1 1/2 inches in the running high jump.

A recent release by J. B. Gurba and S. Goddard, both of the Field Crops Branch of the Department of Agriculture, which is applicable to this area, points out that sound dry seed, treated with recommended dressings for disease and wireworm control, will store well under Alberta winter conditions. Provided the grain is dry and approved dressings are used, the germination will not be affected and the chemicals will not lose their effectiveness during a storage period of several months.

At five cents a bushel, seed treatment will prevent disease carried on the grain itself and protect the seed and seedlings from diseases carried in the soil. Municipal seed cleaning plants are equipped with the best facilities available for this job and can do it cheaper and better than the average farmer at home.

During the last few years only about 33 per cent of plant cleaned seed has been treated at the plants. Both Mr. Gurba and Mr. Goddard agree that there was some justification for this relatively small percentage of seed treated at the plants last year because so much of the grain was damp. However, they unanimously urge farmers to take advantage of plant facilities this year. There are now 41 plants in Alberta with a combined cleaning and treating capacity of 8 million bushels which represent 45 per cent of the total field crops seed used in this province.

It might be added that while 33% was an average for the province, it is estimated that 65% of the grain cleaned in the Vulcan plant in 1960 was treated. This accounts for the small amounts of disease and insect damage reported. We would recommend that you continue and even increase your seed treatments. It is a cheap preseedling treatment for diseases that cannot be controlled once the crop is growing.

Ladies Auxiliary Elects Officers

The regular meeting of the Ladies Auxiliary to the Canadian Legion was followed by the annual meeting Wednesday, Dec. 21, in the attendance and the president, Mrs. A. C. Marsh was in the chair. She was assisted in conducting the meeting by secretary, Mrs. E. Jones.

Routine business matters were dealt with and committee reports received. Plans were also discussed for holding another card party.

At the conclusion of the business session the meeting was turned over to the Comrade James O'Reilly, president of the Legion branch, who conducted the election of officers for the Auxiliary. The following slate was returned:

President, Mrs. A. C. Marsh, re-elected by acclamation; 1st vice-president, Mrs. S. D. Degensson, re-elected by acclamation; 2nd vice-president, Mrs. E. W. Sparks, re-elected by acclamation; secretary-treasurer, Mrs. F. Standing, elected by acclamation. Executive members named were Mrs. A. Sales, Mrs. C. Matlock, Mrs. D. Neville, Mrs. C. L. Kuykendall, Mrs. E. Carruthers and Mrs. E. Jones. The new officers were installed by immediate past-president, Mrs. G. Bell.

To conclude the evening's program a social hour was enjoyed and an exchange of small Christmas gifts took place. The table was suitably decorated for the occasion with Christmas colors and favors and lunch was served by a committee.

SERVICE BOARD NOTES

Norman Soder

All farmers are urged to make appointments now with managers of their municipal seed cleaning plants to have their seed cleaned and treated before the spring rush. Farmers who take advantage of this off-peak period will, in addition to avoiding disappointment later on, be able to enjoy more personalized service at this time of year.

Too Much Power

The economic well-being of Western Canada depends to a large extent on the grain movement into export markets. Competition for external markets is keen and the export movement is usually heaviest in the autumn months.

The recent strike of 235 employees in terminal elevators on the Pacific coast was most alarming. Had it continued for many weeks the loss in markets for wheat and other grains would have run into many millions of dollars.

If the terminal elevator workers had been underpaid or overworked there would have been an excuse for the use of strong measures. But then rates of pay were about the highest for industrial labor across the nation. Even the men who swept the floors got close to \$5,000 a year.

A serious state of affairs exists in this country when the economic welfare of thousands of people rests with a handful of men in a trade union.

TO THINK IT MIGHT HAVE ENDED LIKE THIS

Primitive man had it tough—most of the other animals were bigger and stronger. Fortunately, man had brains... and a wife... or he might have ended up on the wrong side of the plow.

In the early days men competed with earth's other creatures—today men compete with other men to develop energy sources. In the process our standard of living has sky rocketed.

Competition has helped Canadians achieve one of the world's highest living standards. Take the way it works in the oil business—Imperial Oil and hundreds of other companies compete to supply Canadians with oil. As a result, oil is available at reasonable prices wherever it is needed—and Canadians have turned to oil for more than half their energy needs.
